## Undermount

Installed beneath solid work tops (granite or stone). They cannot be used with laminate or melemine surfaces.

## Apron Front

Apron Front describes sinks where the front fascia of the sink is exposed (Belfast type).

### Ice Rock Undermount

Page 87 - 89

**Brushed Finish** has a distinctive grained finish and is ideal for matching with stainless steel appliances.

### Profi Star Undermount

Page 90 - 91

**Satin Finish** has an even soft silk finish.

# Undermounts

The current fashion for solid surface worktops has led to the increasing number of undermounted sink options available. We offer an unrivalled nine ranges within our stainless steel collection providing a total choice of styles and price bands.

## Undermount sink installation

Undermount sinks are installed underneath solid surface worktops such as granite, stone or wood. They cannot be fitted with laminate or melamine worktops.

# Salsa

## Undermount

Supplied with 90mm  
Strainer Wastes

The **Salsa** are the latest range of undermount sink from Clearwater they have contemporary rectilinear lines with 25mm radius corners and are constructed from 0.8mm steel. A sound absorbing undercoat keeps the Salsa quiet when in use whilst adding to the sinks durability.

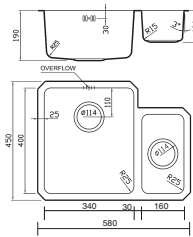

There are three double bowl and three single bowl models to choose from - all of which can be mixed and matched to create the perfect sink solution.

THE BOLD LOOK  
OF **KOHLER.**

# Icerock

## Undermount

The Kohler **Icerocks** are manufactured in the US to the highest of standards. They are a highly versatile - mix and match separate bowls with square or soft corners, or choose between our double bowl options for the perfect solution in your kitchen.

A sound absorbing undercoat keeps the Icerock quiet when in use and adds extra strength to the very durable 1.22mm gauge stainless steel.

Brushed Finish

# Icerock Undermount

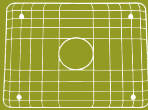

The Kohler **Icerock** undermount sinks offer a choice of slick 25mm radius undermounts shown on these pages or a softer radius range (page 87) for more traditional settings.

Icerock sinks give you the design flexibility you need with the professional look of stainless steel. They are manufactured in 1.22mm stainless steel - the highest grade available for domestic sinks. A sound absorbing undercoat called Silentshield is also applied to the underside of the bowls; this sharply decreases noises from dishes, running water and waste disposal units. Silentshield also helps reduce condensation and maintain water temperature.

**Stainless Steel**  
Undermount

Profi Star shown with KWC Eve Light tap see page 132

Multi-functional in the tightest space

The cutting board is a versatile, easy to clean work surface

The drip tray can also be used on the counter top as a surface for hot pans

# Profi Star Undermount Water-saving design

The **Profi Star** is probably the most versatile undermount sink ever. It combines unique 'stepped' walls with a series of coordinated accessories. The innovative shaped bowl is also an excellent water-saving design. For most applications the water depth of the smaller lower section of the bowl is sufficient by itself. This then leaves space in the upper part of the bowl for the use of the accessories. Gauge 1.0mm.

**Ref. PS51U**  
Profi Star  
including waste and accessories  
Polished **£798**

Cabinet size 600mm

The non-slip grater can be placed directly over the colander

Endless combination options make every task easier

The colander also fits into the lower portion of the bowl

# Accessories

The ingeniously coordinated accessories will simplify every stage of food preparation from washing, soaking, draining, chopping, slicing and grating. The professional quality accessories are always close to hand, have them free-standing or wall mounted.

The space saving wall mounted rack for accessories

The freestanding solution with base for island units

90mm Pop-up Strainer Waste £49

## Inclusive Accessories

2 Stainless Steel Colanders

Drip Tray

Chopping Board

Wall fastenings

There are two ways to keep the accessory modules within easy reach at all times: the spacesaving wall mounting or the base solution. For the latter, a base plinth is cut to size from the offcut of the counter top eg. the bowl cutout. This is fitted with the holder for the drip tray, which offers convenient mounting space for colanders and a chopping board.

## Optional Accessories

Coarse Grater

Fine Grater

Grater Adaptor

# Apron Fronted Sinks

A modern take on a timeless classic, these two stainless steel Apron fronted sinks are the urban equivalent of their fireclay cousins. The **Belfast** shares the same dimensions as the fireclay Belfast and therefore would fit any existing cabinetry as a refurb. The **Purismo Star**, on the other hand, is built to a grander scale and has an ultra-modern slick appearance. They are both manufactured from 1.2mm gauge steel that will ensure life long durability.

*Fit with solid surface worktops only - these include wood, granite or composite granite.*

## Belfast

The **Belfast** comes complete with a bowl grid to protect the surface and act as a draining surface. Also available are a suspended wire draining basket and a glass cutting board.

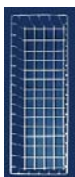

Best fitted with perimeter clear to accommodate these optional accessories.

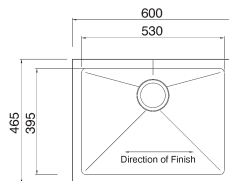

Stainless Steel Wire Drainer Grid - included

## Purismo Star

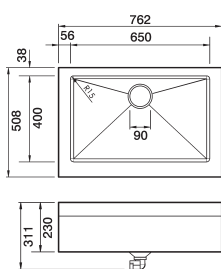

The **Purismo Star** Belfast has total urban chic. Manufactured in Switzerland from high grade 1.2mm gauge stainless steel this sink really has the wow factor.

The stylish features include a unique 14mm front profile adding a design subtlety that sets it apart from its peers.
