

Cast Iron

For a truly classic look try KOHLER Cast Iron. Its beauty, strength, thickness and durability mean it will last a lifetime, ageing beautifully with you and your home.

Its high gloss surface maintains a rich finish that resists chipping, staining and denting and its strength enables beautiful shapes and graceful design lines.

The pure authenticity of Cast Iron will complement other traditional features such as a range cooker or period details and will finish a traditional room beautifully. More modern designs can be used to complete a contemporary space with an element of authenticity and true style.

So whether you want to relax in surroundings reminiscent of the country, or experiment with contemporary materials and spaces, there is a Cast Iron sink to suit your needs.

20^{year}
warranty

Various optional accessories are available with the Cast Iron range they are designed specially to fit each sink.

Cast Iron Sinks

Epicurean

The **Epicurean** is not for the faint hearted! It's a big inset sink with a very capacious bowl and deeply recessed drainer. This sink offers total versatility with it's beautifully constructed accessories.
