

Undermounts

The current fashion for solid surface worktops has led to the increasing number of undermounted sink options available. We offer four ranges within our ceramic collection; the **Modultop** (shown opposite and below), the similar but high gloss **Solo**, the combined 1.5 bowl **Vero** and a round bowl and drainer **Lincoln** (shown on the following page).

Undermount sink installation

Undermount sinks are installed underneath solid surface worktops such as granite, stone or wood. They can not be fitted with laminate or melamine worktops. They are fixed by specially designed clips as illustrated below (all fixings are included).

Modultop

Undermount

White

Calisson Plain

Graphite

The **Modultop** is a high quality product manufactured by Kohler with a sophisticated silky white finish.

Five size options are available allowing you to mix and match the different models to create the perfect solution for your home. These sinks are available in three finishes; white, calisson plain and graphite.

 Gold £58

Artist Editions

We are particularly proud of our Kohler Artist Edition sinks, they are quite stunning in their pattern detail and craftsmanship. Every model has been hand finished with loving care and each piece is quite unique.

This collection comprises of two installation types: The Undermount type shown here and the Apron Fronted Belfast shown on page 83.

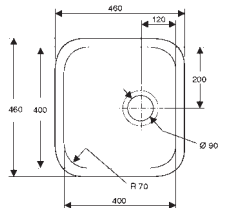

Fruits of Labour detail

Fruits of Labour

Undermount

Taking a cue from the renaissance period, Fruits of Labour presents bands of herbaceous leaves, plums, limes, pears and peapods. The bottom is adorned with a blue and white checkerboard pattern.
