

The **Egon** taps are a brand new design concept featuring beautifully sculptured rectilinear spouts. Each of the models share the same refined spout design but each offer a variety of different water control solutions. Despite the thin profile spout, water aerators have not been left out and have been cleverly positioned at the rear of the spout so that they are concealed when viewing from the front.

60900

The **60900** has a swiveling spout and single control lever on a very neat platform. This tap is ideal for installing directly on to worktops - especially suited on granite or stainless steel for example.

Ref. 60900
 Chrome **£514**
 Brushed Steel **£657**

Min. 1.0 bar pressure required
 Height 265mm
 Reach 213mm

Egon

The spouts are 40mm wide and only 10mm deep. The water aerators are positioned at the rear of spout thus maintaining an unbroken sleek shape.

60921

Total flexibility with this fellow - the tap can be fitted on the sink or worktop in the traditional manner while the remote control which operates the temperature and water flow can be positioned anywhere (within 700mm of the tap). Perhaps on the wall or even on the unused tap-hole at the front of your sink.

Ref. 60921
 Chrome **£514**
 Brushed Steel **£659**

Min. 1.0 bar pressure required
 Height 384mm
 Reach 213mm

60931

This model has all the flexibility of its brother 60921 but if that wasn't enough this one comes with the ever useful pull-out hand spray complete with on/off lever. It doesn't get any better than this!

Ref. 60931
 Chrome **£795**
 Brushed Steel **£1043**

Min. 1.0 bar pressure required
 Height 384mm
 Reach 213mm

The progressive valve in 'on' position.

60971

A very chic wall mounted version of the Egon with fixed spout and single control lever.

Ref. 60971
Chrome £587
Brushed Steel £778

Min. 1.0 bar pressure required
Reach 221mm

60910

The **60910** has the latest progressive valve installed - simply push the lever up and revolve the central column for temperature control. As with all these models (except 60971) the spout fully swivels for use with multi-bowl sinks.

Ref. 60910
Chrome £655
Brushed Steel £846

Min. 1.0 bar pressure required
Height 384mm
Reach 213mm

60922

Same principal as its single remote control cousin but this time with dual controls. Again the controls can be either wall mounted or fitted in line on the worktop or sink. Maximum distance from tap is 250mm.

Ref. 60922
Chrome £547
Brushed Steel £734

Min. 1.0 bar pressure required
Height 384mm
Reach 213mm

Newform

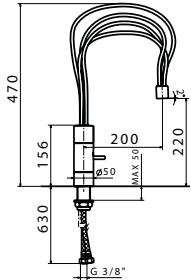

Water Pressure explained - page 119

Taps

Morpho

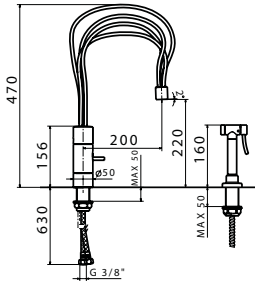

The **Morpho** is most definitely the most distinctive tap in our collection. The water really does travel through the little tubes and works just the same as any of our more regular spouted taps. The quality and craftsmanship is typically Newform high so you can be assured of years of astonishing your guests with this unique tap.

Ref. 61900

Morpho single lever mixer with swivel tap
 Chrome £593
 Brushed Steel £740

Min. 1.0 bar pressure required

Ref. 61945

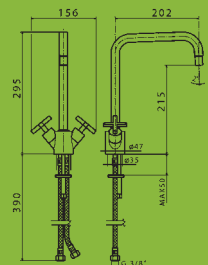

Morpho single lever mixer with swivel tap and dishwashing hand shower with stop
 Chrome £832
 Brushed Steel £1009

Min. 1.0 bar pressure required

Time Square

The **Time Square** has taken the classical traditional cross-head mixer tap and added some modern pizzazz. The round and square shapes combine beautifully and have helped create a very handsome and practical tap.

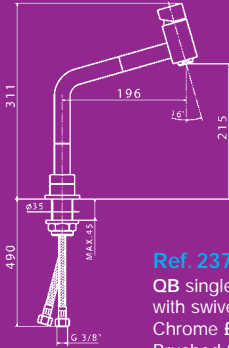

Ref. 8983

Time Square twin cross-head control mixer with swivel tap
 Chrome £295
 Brushed Steel £356

Min. 1.5 bar pressure required

QB

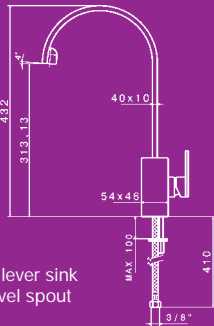

The futuristic **QB** tap is strictly for the most contemporary of kitchens. It swivels a full 160° and the flow and temperature are operated by the a control block on the top of the tap.

Ref. 2370

QB single control mixer with swivel spout
Chrome £408
Brushed Steel £525

Min. 1.0 bar pressure required

Ref. 61421

D-Rect single lever sink mixer with swivel spout
Chrome £407
Brushed Steel £587

Min. 1.0 bar pressure required

D-Rect

The **D-Rect** taps are unashamedly minimalist featuring beautifully sculptured rectilinear lines. Choosing the D-Rect will really add a touch of class to your kitchen.

Newform

Aerators are factory fitted with each tap and supply a non-splash frothy flow
