

# Apron Fronted Sinks

A modern take on a timeless classic, these two stainless steel Apron fronted sinks are the urban equivalent of their fireclay cousins. The **Belfast** shares the same dimensions as the fireclay Belfast and therefore would fit any existing cabinetry as a refurb. The **Purismo Star**, on the other hand, is built to a grander scale and has an ultra-modern slick appearance. They are both manufactured from 1.2mm gauge steel that will ensure life long durability.

*Fit with solid surface worktops only - these include wood, granite or composite granite.*

## Belfast

The **Belfast** comes complete with a bowl grid to protect the surface and act as a draining surface. Also available are a suspended wire draining basket and a glass cutting board.

Best fitted with perimeter clear to accommodate these optional accessories.

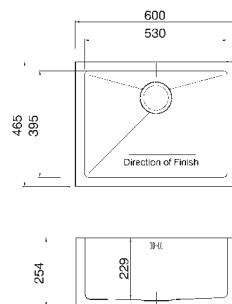

Stainless Steel Wire Drainer Grid - included

Ref. **BSBAK**  
Glass Cutting Board and Stainless Steel Wire Demi Drainer **£108**

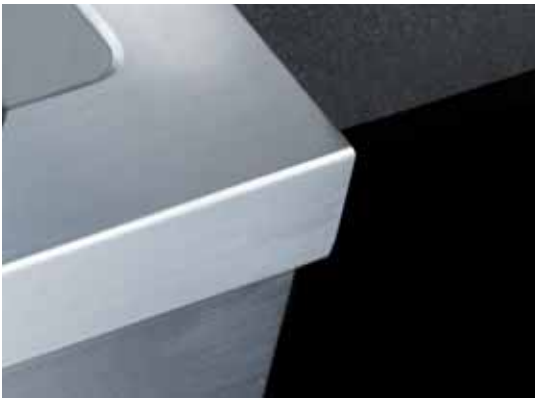

Shown with drainer grid

Ref. **SBE600**  
**Belfast**  
600/465/229  
Brushed Steel **£467**

*Supplied with 90mm strainer waste and bowl drainer grid.  
Suitable for waste disposer.*

To be fitted with solid worktops - abutted or overlapped

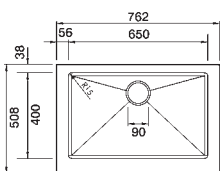

## Purismo Star

The **Purismo Star** Belfast has total urban chic. Manufactured in Switzerland from high grade 1.2mm gauge stainless steel this sink really has the wow factor. The stylish features include a unique 14mm front profile adding a design subtlety that sets it apart from its peers.

# Range Sit-On

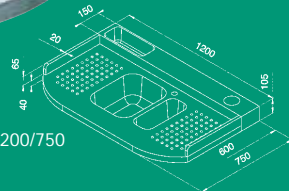

The **Range** sinks incorporate all that is required in the professional kitchen with stunning effect. The F012 and F013 models have high up-stand surrounds that create a complete wet area; included in their rear shelves are a cutlery storage area and a neat integrated cup to store utensils or brushes. All models can be fitted on freestanding workstations or set on fitted units. The profile depth is 40mm to ensure a perfect alignment with adjoining surfaces. Gauge 1.2mm.

## Stanza Sit-On

The **Stanza** sinks are manufactured from high grade 1.2mm gauge stainless steel with added reinforcement under the drainer ensuring robust and durable good looks. Both models sit directly on the cabinetry maximising the 'wet' area and providing a large hygienic food preparation area. Provided are three perfectly matched accessories to create the ideal workstation area.
